Experience

UI Developer

Cardinal Solutions Group | June 2017 - Present

- Part of a team that develops Business View, a web application for Global Payments, a large financial institution that manages credit card processing for merchants
- Involved in development of a net new application, built from the ground up using Webpack, Yarn, React, and Redux
- Researched and built front end internationalization framework for 5 languages
- Contributed to building React component library for resuability for other Global Payments apps
- Contributed to development of Enlist, an internal Cardinal recruiting application

Front End Developer

UNION.co | April 2016 - June 2017

- Part of a team that developed primarily for RJ Reynolds Camel cigarettes brand
- Heavily involved in a site redesign and restructure, transitioning a jQuery-heavy legacy code base into a modular, component driven architecture using React and PHP + Laravel
- Built an HTML email automation workflow using Gulp and npm
- Built a custom gantt chart application for team account coordinators to designate which builds should go on a particular QA environment using Angular, Google Sheets API, Express, node.js and Gulp

Instructor

Tech Talent South | January - March 2016

- Sole instructor of an 8-week code immersion program focused on teaching students the skills they need to prototype, develop and deploy dynamic web applications on the Ruby on Rails framework; curriculum included introduction to Ruby, Rails, CSS frameworks, APIs, and Heroku / Elastic Beanstalk deployment
- Recruited new students to the Asheville TTS chapter and organized talks and tours of local development shops and start ups
- Organized Asheville's first tech and networking night, held at Open Space AVL, to discuss the future collaboration of local entrepreneurial, technology, and start up communities

Community Engagement

- Co-organizer of Charlotte Junior Devs, a group that aims to create a tight knit community and mentorship / support system for junior developers. Duties include scheduling meetups, mentoring junior developers, and community engagement
- Co-organizer of Charlotte Devs, a group that aims to inspire collaboration throughout the entire tech community of Charlotte. Events include meetup mashup nights and Slack IRL
- Co-organizer of Girl Develop It! Charlotte chapter, a nonprofit organization that provides affordable programs for adult women interested in learning web and software development in a judgment-free environment.
- Gave a talk to Charlotte Junior Devs on working with recruiters as a software developer
- Participated in a panel talk for Corporate Recruiters of Charlotte to provide a 'reality check' for recruiters that work with developers and other individuals in tech
